## ENGAGEMENT POLICY IMPLEMENTATION STATEMENT

Financial Year Ending 30 April 2021

### Introduction

This statement sets out how, and the extent to which, the stewardship policy and related policies on environmental, social and governance ('ESG') factors and climate change set out in the Statement of Investment Principles ('SIP') have been followed during the year to 30 April 2021. This statement has been produced in accordance with The Pension Protection Fund (Pensionable Service) and Occupational Pension Schemes (Investment and Disclosure) (Amendment) Regulations 2019 and the guidance published by the Pensions Regulator.

### Investment Objectives of the Plan

The Trustees believe it is important to consider the policies in place in the context of the investment objectives it has set. As set out in the SIP, the Trustees primary investment objective is to achieve an overall rate of return that is sufficient to ensure that assets are available to meet all liabilities as and when they fall due. In doing so, the Trustees also aim to maximise returns at an acceptable level of risk, taking into consideration the circumstances of the Plan.

The objectives set out above provide a framework for the Trustees when making investment decisions.

### Policy on ESG, Stewardship and Climate Change

The Trustees understand that they must consider all factors that have the potential to impact upon the financial performance of the Plan's investments over the appropriate time horizon. This includes, but is not limited to, ESG factors.

The Plan's SIP includes the Trustees policies on ESG factors, stewardship and climate change. The policies in question were last approved on 23 September 2020.

In order to establish these policies, the Trustees discussed ESG and the latest regulatory requirements governing the inclusion of ESG policies at the Trustee meeting of 17 September 2019. The Trustees keep their policies under regular review with the SIP subject to review at least triennially.

### **Plan's Investment Structure**

The Plan invests in pooled investment vehicles managed by three investment managers. As such, the Trustees have a direct relationship with the Plan's underlying investment managers. The Trustees have the responsibility of selecting the pooled funds, in conjunction with advice received from their investment advisor, Mercer.

### **Trustees Engagement**

In the relevant year the Trustees have not engaged with either the underlying pooled investment managers on matters pertaining to ESG, stewardship or climate change.

The Trustees are working with Mercer on an ongoing basis, to consider actions that can be taken to engage with their investment managers going forward. In doing so, Mercer will provide fund specific ESG ratings (with ratings derived by Mercer) for the funds the Plan is invested in. This which will help to determine whether further action should be taken in respect of specific funds.

### **Voting Activity**

The Trustees have delegated their voting rights to the investment managers of the Plan. The Trustees have not been asked to vote on any specific matters over the Plan year.

Nevertheless, this Statement sets out a summary of the key voting activity of the pooled fund for which voting is possible (i.e., the fund which includes equity holdings).

We note that best practice in developing a statement on voting and engagement activity is evolving and we will continue to take on board industry activity in this area before the production of next year's statement.
